

COASTAL WILDLIFE FRIENDLY LIGHTING

1600K Amber illumination designed
for coastal and wildlife sensitive
environments

ILLUMINATE RESPONSIBLY . **PROTECT THE NIGHT**

LIGHTING DESIGNED WITH COASTAL WILDLIFE IN MIND

590nm amber illumination for turtle and wildlife-sensitive environments

Jademar's amber lighting solutions provide warm, 590nm illumination for coastal and environmentally sensitive applications. Designed to meet nighttime lighting needs while minimizing ecological disturbance to marine life, these fixtures provide a low-impact alternative for beachfront properties, pathways, building exteriors, parking areas, parks and other wildlife-sensitive locations.

WILDLIFE PROTECTION

590nm Amber light is proven to be less disruptive to marine life, helping protect nesting turtles and coastal ecosystems.

MADE FOR COASTAL APPLICATIONS

Built for demanding coastal environments with durable construction and wet-location listed reliability

A COMPLETE LIGHTING FAMILY

From area lighting to wall packs, post tops and architectural fixtures maintain wildlife-conscious lighting throughout your property

EXPLORE OUR AMBER PRODUCTS
