

# ECG Powerline School – Meterman Certification Program

---

**ECG's PowerLine School** is the culmination of years of field experience and countless hours of applied classroom training. ECG's comprehensive training courses incorporate **'Safely Always'** while challenging and preparing the Electrical Lineworker for advancement.

**Our 1-year *Meterman Certification Program*** features topics such as safe metering work practices, metering terminology and definitions, as well as an in-depth look at single phase and polyphase meters. Also included is a comprehensive look at instrument transformers, single phase and polyphase meter wiring diagrams and meter installation troubleshooting.

## ACADEMICS

Two hands-on and classroom training events lasting three days each and scheduled 8 months apart.

## INSTRUCTOR

**Don Poole** - Don worked for Cobb EMC for twenty eight and a half years, twenty eight of those in metering. He retired in 2014 as Manager of Metering Services. He also served on the planning committee for the Southeastern Meter School and Conference as a Module Coordinator, and taught several classes at the school. Don was recognized in 1999 as "Meter person of the Year" by the school. Don earned a diploma in Electronics Technology, as well as an Associates degree in Electronic Engineering from Chattahoochee Technical College. He also earned a Bachelor of Science degree in Organizational Management from Covenant College.

# Meterman Certification Program

---

## WHAT TO EXPECT EACH LAB

### 1 Day 1

Safe Metering Work Practices  
Math for Metering  
Ohm's Law

### Day 2

Single Phase Meters  
Polyphase Meters  
Instrument Transformers  
Meter Set/Removal

### Day 3

Socket Checks  
Meter Installation Troubleshooting  
Meter Installation Maintenance  
Q & A, complete evaluations

### Hands-On

*Wiring of Instrument Transformers and Socket Checks*

### 2 Day 1

Single Phase Wiring Diagrams  
Polyphase Wiring Diagrams

### Day 2

Power Theft  
Intro to Automated Metering Infrastructure  
Meter Shop Forms and Issue Guide  
Intro to Primary Metering

### Day 3

Q & A, complete evaluations

### Hands-On

*Single Phase Wiring, Polyphase Wiring and Wiring of Primary Metering*

Phone

## PRICING

- \$1,600 Training & Safety Member
- \$3,200 Non-Member

## SIMPLE WAYS TO REGISTER

Contact **Christina Kincade** with registration information.

- Email           ckincade@ecoga.org
- Phone           770.661.2770
- Fax              770.956.1909

## CANCELLATION POLICY

If you are unable to attend, substitutions will be permitted up to **one month** prior to the first lab date of the 2-year program with written notification. No Refunds or Credits will be issued. ECG reserves the right to reschedule or cancel any scheduled training class or to replace personnel.

\*While ECG has made reasonable efforts to provide quality training services, it makes no representations or warranties of any kind, express or implied, about the completeness, accuracy, reliability, or suitability with respect to any training for any particular purpose. Any reliance you place on such training for a particular purpose is therefore strictly at your own risk. ## CLASS LOCATIONS

**Newnan Training Center**  
381 Corinth Road  
Newnan, GA 30263

## CLASS DATES

**Class 3 - Lab A**  
August 20 – 22, 2019

**Class 3 - Lab B**  
April 14 - 16, 2020

## CLASS SCHEDULE

Classes are held from  
Tuesday  
12:00pm to 4:00pm,  
Wednesday  
8:00am to 4:00pm and  
Thursday  
8:00am to 12:00pm.

For information about our programs or for training requests, please contact us.
