Session 1: Arranging in Glass, Lacing

Instructor: Carol Caggiano, AIFD, PFCI

Glass vases can be challenging to control flower placement. In this class we will learn the technique known as lacing making it possible to arrange your flowers as you would like.

Refreshing Sunday, Sept. 29, 2-3:30 p.m.

Session 2: Arranging in Glass, Spiral

Instructor: Carol Caggiano, AIFD, OFXI

Using the spiral technique allows the stems to be arranged in hand and then dropped into the vase. The bouquet looks attractive and the stems look great through the glass as well.

Wine & Design Thursday, Oct. 3, 6:30-8 p.m.

Session 3: Arranging in Glass, Kubari

Instructor: Ellen Seagraves, AIFD

Japanese floral designers use a technique called Kubari where a branch is wedged into the container to support the floral material. There are many forms of this technique for us to explore.

Refreshing Sunday, Oct. 20, 2-3:30 p.m.

Session 4: Hand Tied Bouquet with Armature

Instructor: Terry Godfrey, AIFD

A hand tied bouquet is a versatile technique for arranging flowers, where they can be carried or dropped into vases. We use the spiral technique from Session 2 combined building our bouquet around an armature.
