# TALONS IN TRAINING

Advanced Player Development (2016-2014)

STILL ACCETPING PLAYERS INTO OUR FULL YEAR TALONS IN TRAING (REP) PROGRAM
JOIN US FOR WITNER TRAINING AS WE PREPARE FOR 2023 OUTDOOR REP SEASON.

## WHAT?

The Talons in Training (TNT) program (sometimes referred to as Rep) is an advanced stream of soccer available to male & female players born between 2016 and 2012. These players are taught, instructed and coached by our most qualified and experienced coaches. The players train multiple times a week (indoor and outdoor) and participate in an outdoor league (York Region Soccer League) against other Clubs in York Region.

## PLAYERS?

Players that display athletic ability and coordination; focus and effort during training and games; have a positive attitude, a passion for the game and an interest to learn new skills.

There is no magic formula to what makes a successful soccer player. We expect the following

- Focus, high work rate, and effort during training
- An interest and desire to learn new skills and to work on those skills away from the training pitch,

## FOCUS?

Focusing on correct technique and age appropriate curriculum develops proper habits and love of the game in our players. Our program has been developed specifically for these age groups and balances the technical skill development with the right amount of fun to foster the required love of the game.
