

Parent & Youth Voice Project of Cayuga County

Parents, Caregivers, Youth & Young Adults

We Want to Hear From You!

What is this?

Cayuga Thrives is gathering feedback through a Voice Project to better understand the experiences, strengths, and challenges of parents, youth, and young adults in Cayuga County.

Why participate?

It helps us understand life for parents, youth, and young adults in our community. Your feedback shows what's working, what's missing, and where change is needed. It guides improvements across Cayuga County.

Your voice is safe

Your voice matters—participation is voluntary, your responses are confidential, and your honest feedback helps create real change in our community.
