

I want to take this opportunity to thank the AMTA-VT BOD for selecting me as a scholarship winner at the 2017 educational weekend.

For me these events have so much to offer: Education, an opportunity to see and use new products and tools, camaraderie with colleagues, and a chance to get away. I'd like to briefly share my experience in those areas from last November.

Education- With the scholarship I was able to receive 16 CEU's for free! What a gift! I took the Ortho-Bionomy class and the 2 Hot Stone offerings. I absolutely loved the Hot Stone class! I've always wanted to take a therapeutic Hot Stone class- this has totally changed how I can offer this service to my clients! I was able to create three new treatments just from taking these 2 classes.

I thought it was very exciting that there was a vendor hall this year- I bought several products and some of the Hot Stones associated with my class. I hope this returns!

Nothing beats getting together with colleagues- the people who "get" you! We enjoyed discussing work, catching up on personal lives, and enjoyed a local restaurant in Fairlee.

And getting away- I feel so lucky to have been to the Lake Morey Resort several times now for these events. It's so beautiful! I could see the lake from my room, from the dining room, and both of my classes had excellent lake views.

Thank you so much for a wonderful weekend!
Sincerely, Laura Morley
