

## **2020 Graduating Students**

### **Pass/No Pass for Spring 2020 and Summer 2020 Graduating Students**

A grade of Pass may be used to meet a degree or certificate requirement.

A grade of No Pass cannot be used to meet any degree or certificate requirements, even if a requirement would normally allow a grade of “D” to be used. A grade of No Pass will not affect your GPA and may be the preferable choice for students with a current grade point average at or below 2.0. Please contact your advisor or department chair before asking for a grade of NP for a course that will complete one of your program requirements.

If you need additional help in making decisions that best complete your degree or certificate, or meet transfer coursework needs, contact the graduation office or [department chair](#) before requesting conversion of any of your course grades.
