4 TYPES OF NOTE TAKING

ACC
ACADEMIC COACHING

LISTING

- Least effective method
- Requires a lot of writing
- Focuses on capturing most of the instructors words
- Hard to prioritize ideas using this method

OUTLINING

A.) Allows you to prioritize material

B.) Subordinate ideas are indented under key concepts

C.) Students may have trouble deciding when to start a new key concept

a. This takes practice and learning the lecture style

CONCEPT MAPS

What is a concept map?

A graphic method of capturing relationships between ideas and concepts

Creates branches of supplementary details connecting to main ideas

CORNELL NOTES

Questions / Key Ideas from the material

Notes (in your own words)

Can be a list, outline, or combination of any of these methods

Summarize the material and your key takeaways
