

# Welcome Fall Semester 2022

---

## Dear ACC High School Program Families

We are SO glad to see students eager to start a new academic year! Although we are still living in challenging times, ACC's staff and faculty are still here to ensure your students have the opportunity to achieve their dreams. Starting college can be confusing, so visit [our resources](#) to assist your students as they become familiar with Austin Community College.

**Did you know that you are your student's most important resource?** It doesn't matter whether or not you went to college. What your student needs most is your encouragement, your recognition of the value of their college work, and your belief in their ability to succeed.

Thank you for your commitment to your student and their work at ACC.

Dr. Melissa Biegert  
Director, High School Programs Academic Success  
Office of College & High School Relations  
Austin Community College
