Scheduling a Productive Tutoring Session with the ACC Learning Lab Tutors

Find the Right Tutor

- Review our Lab Hours to ensure we can assist you*
- Check the Tutoring Schedules for tutor/subject availability

Submit an Online Tutoring Request

- Enter a preferred session time to meet with a tutor
- Share relevant course information on the form
- Submit one ticket per subject area
- Watch your ACC student email for updates on your request

Prepare for Your Tutoring Session

- Be sure to have all your course materials ready before your session starts
- Know what questions you need to ask ahead of your session
- Arrive to your session on time

Set Yourself Up for Success

- Place yourself in a noise-free environment
- Allow enough time for the tutoring session. Online tutoring takes a little longer than in-person tutoring, as the communication can be a little more difficult.
