

20777 Lorain Road
Fairview Park, Ohio 44126

Bill Schneider
Mayor

June 24, 2025

Dear Resident/Property Owner,

The City of Fairview Park is committed to maintaining and improving the infrastructure that supports the health, safety, and quality of life of our community. As part of this commitment, the City will be starting the construction of the Woodstock Avenue Sewer Remediation and Environmental Improvement Project "Project" in late July/early August 2025. The Project is scheduled to be fully completed by fall of 2026.

The Project includes replacement of sewers and lead water service connections with assistance from Cleveland Water, followed by street reconstruction and restoration. These upgrades are necessary to ensure the continued reliability of essential sewer and water services and improve roadway conditions.

Utility service will be maintained, however short, temporary disruptions will occur. Street parking and driveway access will be disrupted. The contractor will make every effort to accommodate residents to lessen the burden.

To keep residents informed, the City will host a public meeting where residents can learn more about the Project timeline, scope, and impacts on the residents.

Date: Thursday, July 10, 2025

Time: 6:00 PM

Location: Fairview Park City Hall, 3rd Floor, 20777 Lorain Road

(building entrance and parking in the rear of the building)

City staff, engineers and Cleveland Water will be available to answer questions and address concerns.

Your cooperation and patience during this time are greatly appreciated. These necessary improvements will enhance service reliability and road conditions for years to come.

If you have any questions or are unable to attend the meeting and would like to receive more information, please visit the City website at www.fairviewparkohio.gov as the homepage will have a page dedicated to the sewer improvement project.

Sincerely,

A handwritten signature in blue ink that reads "Bill".

Bill Schneider
Mayor
