

Hambly Lavender Farms Announces All-New 2023 Lavender U-Pick Experience

Inhale sweet lavender wafting through the air. Stroll through the pretty planted rows of dreamy lavender varieties. Harvest your own lavender bundle. Plan a picturesque picnic amidst wide open spaces with breathtaking views for miles. Exhale, and be in the moment at **Hambly Lavender Farms**.

The **Hambly Farms** 2023 season begins May 1 through late October, *Ma Nature willing*, though reservations are now open for your SLO CAL vacation planning. This all-new experience will feature a lavender u-pick of multiple varieties, from culinary to craft. The vistas from their rolling hills of lavender include local vineyards, with the California coastal mountain range in the background, providing farm goers picturesque views and photo opps while harvesting and breathing in the sweet scents of summer. Visitors will also find friendly barnyard animals looking on adorably as they stroll into the fields.

Whether you are an experienced u-picker, or a first timer, **Hambly Farms** guests will select a one-hour morning or sunset farmer lead u-pick session, allowing plenty of time to hit one of the many trails for more agritourism activities and fit for foodie experiences found in San Luis Obispo County. Learn more about Hambly Lavender Farms at hamblyfarms.com and confirm available dates for your u-pick harvest experience.

Hambly Farms is a multi-generational family owned u-pick lavender farm nestled in Paso Robles Wine Country, amidst the beautiful Central Coast of California. Hambly Farms nurtures the land and gathers their harvest to create estate-made lavender products in a place that family, new friends and old will come together to make memories that will last a lifetime.
