

VIRTUAL COMMUNITY DISCUSSION

# **The Disordered Cosmos**

## **A Journey into Dark Matter, Spacetime, and Dreams Deferred**

### **7:30 PM TUESDAY, MARCH 16**

Charis Books & More / Charis Circle, in collaboration with the Auburn Avenue Research Library, welcomes Chanda Prescod-Weinstein in conversation with Imani Perry, for a celebration of Prescod-Weinstein's highly anticipated, *The Disordered Cosmos: A Journey into Dark Matter, Spacetime, and Dreams Deferred*.

From a star theoretical physicist, a journey into the world of particle physics and the cosmos -- and a call for a more just practice of science (not a complete sentence). In *The Disordered Cosmos*, Dr. Chanda Prescod-Weinstein shares her love for physics, from the Standard Model of Particle Physics and what lies beyond it, to the physics of melanin in skin, to the latest theories of dark matter -- all with a new spin informed by history, politics, and the wisdom of Star Trek.

One of the leading physicists of her generation, Dr. Chanda Prescod-Weinstein is also one of fewer than one hundred Black American women to earn a Ph.D. from a department of physics. Her vision of the cosmos is vibrant, buoyantly non-traditional, and grounded in Black feminist traditions.
