Fiction (Historical), Young Adult

A two hundred year old diary. What could possibly be interesting about that? Andi is too immersed in her own misery to be excited about accompanying her father on a trip to Paris over winter break. Then she finds Alexandrine's diary. Alexandrine lived during the French Revolution, and as Andi traces her steps through the City of Light, she finds comfort in the pages of the diary. That is, until one night in the catacombs when it all becomes frighteningly real.

Revolution alternates between modern day and the 1790s and will appeal to fans of Palace of Stone by Shannon Hale. It is available in print and on audio CD to pick up at curbside.
