

## NIGHT AT THE MOVIES

During a recent church Zoom gathering the participants discussed the possibility of forming a new group for parishioners built around the viewing and discussion of films. As currently visualized, and at least for the time being, such a group would meet monthly by Zoom. At their leisure, the participants would watch a particular movie in advance and then over a period of one hour discuss that film at the scheduled meeting time. What kind of movies? They would cover a wide variety of genres and would, generally speaking, be ones getting high marks from critics including those with R ratings. Movies known to contain an excess of sex and violence would be avoided, regardless of critical acclaim.

Any adult parishioner is invited to join the Grace Church Movie Group. Joining means an interest in participating in the group's activities and a desire to receive future emails about its meeting dates and the films to be watched and discussed. Any parishioner can join the group now or at a future date. Non-members can always participate in meetings but will not be included in group emails. Information about what movies are being shown and when will appear in Tuesday's Child and in the church bulletin once we resume in-person services.

If you have an interest in joining, please send an email to George Raymond [graymond747@gmail.com](mailto:graymond747@gmail.com).
