

# I will lead

One day I will lead

Lead this nation to greatness

To peace

To safety

To success

Right now

We are going nowhere

We are stuck

No progress

I (a white teenage girl)

Should not have to walk out of my school and feel unsafe

I should not have to feel unsafe walking to my home

I should not feel unsafe walking to my car

I should not feel unsafe on the bus

I should not feel unsafe getting food

I should not feel unsafe

Period.

No one should feel unsafe in this world

In their home

School

Restaurant

Bus

Car

Store

No one should have to call their friend to help them

No one should have to have their mom pick them up because their scared

No one

Ever

When I lead

No one will feel unsafe

Or scared

Or worried

No one will suffer

I will change this terrible world

Change the way things are ran

Fix the problems

Help the people

Make this place “the American dream”

The place that people want to live

The place people want to share

The place people love and care about

But

Right now

It is not “the American dream”

Not the place people want to live

Not the place people want to share

Not the place people love and care about

I will lead

I will fix

I will help

**I will change**
