

## Seattle Skills Center Information

Do you want to learn advanced, hands-on, practical career skills and have the opportunity to earn industry certification, dual college credit, or participate in an internship or pre-apprenticeship while still attending high school? **Apply for a Seattle Skills Center school year course!**

If you are a high school student in Seattle Public Schools, you can enroll in one **HALF DAY** Skills Center course for **up to 3 Career and Technical Education (CTE) credits per year**, while still attending your regular school the other half of the school day. You can still participate in sports, activities, and stay connected with friends. Each class requires 3 periods per day (periods 1-3 for AM classes, and periods 4-6 for PM classes). Talk with your school counselor to make sure it will work with your schedule. Regardless of which high school you attend, you can take any Skills Center class.

See the [webpage](#) for full course descriptions and the easy, **REQUIRED ONLINE APPLICATION**. Students can get a **taxi, van, or school bus** to and from their Skills Center class, so no worries about long commutes on the Metro or Light Rail. See the map of Skills Center locations on reverse side of this form. Learn more about school year and summer courses at: <http://skillscenter.seattleschools.org>
