

Share the Impact of Recent Policies and Cuts to Funding and Staff Across US Agencies and Departments.

The Consortium of Universities for Global Health is seeking short videos on the impact recent cuts and policies by the US administration are having on people, programs, research and communities in the US and around the world.

Visual stories are a powerful way to communicate. Help us do this by recording a short, under 3-minute video describing these impacts. By submitting a video you grant CUGH permission to share it publicly.

Thank you.
