THE OVERSTORY

In his twelfth novel, National Book Award winner **Richard Powers** delivers a sweeping, impassioned novel of activism and resistance that is also a stunning evocation of...the natural world. From the roots to the crown and back to the seeds, *The Overstory* unfolds in concentric rings of interlocking fables ...exploring the essential conflict on this planet: the one taking place between humans and nonhumans. There is a world alongside ours—vast, slow, interconnected, resourceful, magnificently inventive, and almost invisible to us. This is the story of a handful of people who learn how to see that world and who are drawn up into its unfolding catastrophe.

The Overstory is a book for all readers who despair of humanity's self-imposed separation from the rest of creation and who hope for the transformative, regenerating possibility of a homecoming. If the trees of this earth could speak, what would they tell us? "Listen. There's something you need to hear."
