CERTIFICATIONS

Electrical Technology is a program that provides the basic skills needed for entry into residential and light commercial applications in the electrical field. Students will learn how to prepare sketches and follow blueprints to determine the location of wiring and equipment, as well as ensure building and safety codes are followed. Students will get hands-on training and will place conduits, pipes, and tubing inside designated partitions, walls and other concealed areas, as well as pull insulated wires and cables to complete circuits.

In partnership with the **Bethune Empowerment Center**, you can learn from our knowledgeable faculty, gain practical, hands-on experience, and obtain your Electrical Technology Level I Certificate.

## CAREERS:

Electrician • Residential Wiring  
Commercial Wiring • Electrical Inspectors

## MEDIAN SALARY:

\$62,623

## 8 WEEK 1

### Basic Electrical Theory

*ELPT 1311*

8/28 – 10/18  
MW  
8 – 9:55 a.m.

### Electrical Calculations I

*ELPT 1315*

8/28 – 10/18  
MW  
10 – 11:20 a.m.

## 8 WEEK 2

### Introduction Electrical Safety & Tools

*ELPT 1321*

10/25 – 12/17  
MW  
8 – 9:55 a.m.

### National Electrical Code I

*ELPT 1325*

10/25 – 12/17  
MW  
10 – 11:20 a.m.
