

HVAC & REFRIGERATION

LONE STAR COLLEGE-HOUSTON NORTH

*OFFERING 8-WEEK CLASSES
AND COHORT STYLE LEARNING*

The Heating, Ventilation, Air Conditioning and Refrigeration (HVAC&R) program allows for individuals to obtain valuable certificates that may be applied to an Associate of Applied Science degree. The program prepares the individual for a technical service career in residential or light commercial/industrial environmental systems.

The student will study the mechanical and electrical/electronic systems involved in contemporary environmental controls. The academic requirements of the program provide a

foundation for continued studies should the student decide to pursue his or her education or training.

The HVAC&R Certificate program prepares the individual for basic, entry-level employment in the residential and/or light commercial heating, air-conditioning and refrigeration service industry. The essentials of the mechanical and electrical systems of contemporary air-conditioning, heating and refrigeration systems are addressed throughout the program.
