

Habitat For Humanity Group Volunteer Opportunities

We have started 30 of the 34 planned homes we are building this year!

The last four homes will be started in the September/October time frame, which is also when we start circling back on some of the first homes for the next set of tasks. As always, our goal is to finish the exteriors of the homes before the snow flies.

Ever wonder why volunteering with us is a full day commitment? In addition to the 34 future homeowners counting on us and the Wisconsin weather, it helps ensure both efficiency and safety on site. In many cases, specific tasks—like applying flooring adhesive or setting walls—require the full day.

Please see the current volunteer opportunities below. ***At this time, we are offering one date max per scheduling period so that we may accommodate as many interested groups as possible.***

Framing (Maximum 10 volunteers):

September 4, 5, 20, 24, 25, 26

October 4, 9, 11, 15

Siding/Framing Punch (Maximum 6 Volunteers):
