

About the Speaker

Dr. Amy Goldstein, MD

Dr. Goldstein is the Clinical Director of the Mitochondrial Medicine Frontier Program with the Division of Human Genetics at the Children's Hospital of Philadelphia. She is board certified in neurology, and psychiatry with special qualifications in child neurology. She is an active member of the Mitochondrial Medicine Society, a governing member of the Mitochondrial Care Network, and also serves on MitoAction's Medical Advisory Committee.

PATIENT EDUCATION FORUM

presented by: Ultragenyx Pharmaceuticals

Join MitoAction for an afternoon to learn about recent developments in mitochondrial disease, network with others who are facing the challenges of living with this rare disease, and ask questions of a leading expert in mitochondrial disease care.
