

HAIS Learning Walks

Purpose:

The goal of the Learning Walks is to improve practice through observation and reflection, while building collaboration among colleagues from HAIS member schools. Participants will spend a day at a host school, observing student learning, teaching and learning strategies, and learning environments. This experience is also intended to give participants the opportunity to reflect on their own practice.

Want to Go on a Learning Walk?

Sign up today to visit Kamehameha Middle School, Trinity Christian School, or Holy Nativity School (Please Note: Participants may register for multiple learning walks but space is limited to 12 participants per learning walk). Each visit will run from approximately 8am-1pm (5 hours) & lunch will be provided.

Cost - \$30 per participant
Deadline to Sign Up - April 6, 2018

Trinity Christian School

Learning Walk Date: April 19, 2018

Being the only classical Christian school in Hawai'i, Trinity Christian School will showcase their classical pedagogy--shared inquiry in the secondary school, spelling & grammar in elementary, fine motor or multi sensory in preschool. Teachers will observe a very different teaching methodology than what is common in other schools.

Holy Nativity School

Learning Walk Date: May 3, 2018

Holy Nativity School recognizes that learning happens best in an environment of respect and trust and focuses on personalized learning where every child is truly known. Now, the school is excited to offer Hawai'i's keiki even more in education, with the addition of seventh grade, beginning this year, and eighth grade beginning in 2018. The school's curriculum follows current neuroscience and research to deliver a program that ensures academic rigor, but also nurtures social and emotional maturity. Students focus on metacognition and all teachers incorporate yoga to increase mindfulness.

As the first school in Hawai'i to incorporate Computational Thinking into the curriculum, HNS students are engaged in critical thinking, problem solving, and creativity using logical thought, precision and data management—skills required in today's classrooms and careers. Mindset Math and Design Thinking, the leading edge methodology used by innovative colleges and companies, also infuses HNS curriculum to inspire students to discover creative, out-of-the-box solutions to problems by focusing on empathy by listening and communicating with others.
