

Breakout 1

- Session Title: Herding Cats: Using Collective Impact Principles to Improve Quality in Therapeutic Foster Care-the Alliance Approach

Room: A&B

Presenter(s): Leslie Kellenberger, *Consulting Alliance Behavioral Healthcare in North Carolina*; Kate Peterson, *Healthcare Network Project Manager of Alliance Behavioral Healthcare in North Carolina*; Jeannie King, *Executive Director of Foster Care for Pinnacle Family Services*; Rashel Lauret MS LMFT, *Quality Specialist for Rapid Resource for Families*

Theme and Purpose: This presentation will expound upon the framework that Alliance has developed as a collaborative approach to improving quality and outcomes in therapeutic family care. Through a Collective Impact approach, working with providers and other stakeholders, such as DSS, schools, statewide organizations and universities, all providers are adopting models to improve outcomes and report data that will result in individualized performance reports.

- Session Title: Theory and Practice of Recovery

Room: C

Presenter(s): Delton Russell, *Cardinal Innovations Member Engagement Specialist*

Theme and Purpose: This training is designed to reduce the stigma of addiction and recovery by exploring events leading to addiction and the relationship between addiction and the prevalence of trauma, arrested development and genetic predispositions. The importance of the language surrounding addiction and how this language is received will also be addressed. Through exploration of the recovery process and community engagement methodology, participants will better understand barriers that prevent people from engaging in services and how to work to resolve these barriers.

Breakout 2

- Session Title: Improving Access and Care for Trauma through Whole Person Integrated Care

Room: A&B

Presenter(s): Martha Kaufman, *Integrated Care Director, Partners Behavioral Health Management*; Jennifer Greene, *Integrated Care Project Manager, Partners Behavioral Health Management*

Theme and Purpose: Presenters will discuss the use of medical homes as the avenue to address trauma as presented by the American Academy of Pediatrics. Discussion will also highlight how access to consulting behaviorist through Partners' Whole Person Integrated Care model improves access and quality of collaboration when children present with possible trauma responses.

- Session Title: Peer Support Specialists, Appreciating the Impact of Trauma and Influencing Recovery

Room: C

Presenter(s): Allison Wolfe, *LCSW, Director of Social Work Services*; Calvin Harvel, *Certified Peer Support Specialist*; Jeff Wisdom, *Certified Peer Support Specialist*

Theme and Purpose: This presentation will connect the trauma informed philosophy of care with creating resiliency and influencing recovery through the lens of peer support. It will provide a greater scope of peer support practice through describing collaborative efforts between peers in inpatient units and emergency room settings.
