MARKING TAPE - DOMESTIC

Sigma now inventories Detectable and Non-Detectable Marking Tapes as well as Barricade Tape.

For those unfamiliar with Utility Marking Tape, here are a few of its characteristics:

Detectable Tape is 5 mils thick and reverse laminated.

Non-Detectable Tape is 4 mils thick for prolonged use underground

Both tapes are color coded to AWWA industry standards.

Barricade tape is printed with High Contrast CAUTION lettering on safety yellow tape.

BOX LOK

The Valve Box Alignment Device

The BOXLOK is a valve box centering device designed to eliminate the shifting of the valve box against the operating nut of the valve

For use in All Cast Iron Valve Box Applications

To determine the right unit for your application, match the size and brand of the valve to the BOXLOK unit number

	BOXLOK Unit Number						
Valve Size (Inches)	2	3	4	6	8	10	12
AFC	2	2	2	2	2	1	1

POLY WRAP 8 MIL

Low Density Polyethylene Products

Polycase LLDPE encasement film is a carefully engineered linear low-density virgin polyethylene resin film designed to meet the requirements of the ANSI/AWWA C105/A21.5 standard.

Carefully controlled molten resin is forced under high pressure through a die-head producing a bubble of polyethylene in a vertical column. The resulting tube is cooled and gathered onto spooling equipment at the top of the column.
