Quality – Service – Commitment – Delivered.

We manufacturer various types of frame styles and load ratings to offer quality solutions for access to underground structures.

Angle Frame

Angle Frame – For applications where rainwater entering structure is not a concern.

- Pedestrian and AASHTO H-20 Wheel Loading
- Single and Double Leaf
- Safety Grating or Safety Net

Trough Frame

Trough Frame – For solutions where rainwater control is needed. Not to be used for watertight/floodtight designations.

- Pedestrian and AASHTO H-20 Wheel Loading
- Single and Double Leaf
- Safety Grating or Safety Nets
