

## **Treat Yourself to** **Cashmere**

The benefits of owning a cashmere sweater are endless. The long-lasting, luxurious and silky fabric can keep you warm during the cooler temperatures while not making you feel bulky and uncomfortable. They are breathable and have some natural stretch which makes it an optimal travel piece. From flying to the family Thanksgiving, driving through the mountains for a foliage tour, to just sitting in those frigid hotel conference rooms during a business trip, a cashmere sweater is the perfect travel partner. McMahan's is excited to sell super light-weight cashmere. Visit the link below to see all of the colors and styles available to you.
