## **Class Descriptions**

### **English for Speakers of Other Languages (ESOL)**

ESOL Level: 1-6

*In-person and online options*

Our ESOL core classes focus on the ability to listen, speak, read, write, use math, think critically and creatively, and use technology to navigate our lives. Each class is content- or theme-based, and skills are taught in context. Each class also works towards a final, integrated-skills project.

### **Citizenship Class**

ESOL Level: 2-4

*Online only*

This year-long content-based ESOL course prepares students to pass the US naturalization exam. Regular reading lessons develop literacy skills and focus on the civics and history content of the 100 questions. Students also practice sentence level dictation and sight word spelling. Listening and speaking prepares students to participate in academic discussions, presentations, and formal interview situations. Citizenship students will need to do an intake, sign an information sharing consent form, share a copy of their green card, and share a copy of benefits or income evidence.

### **Beginning Computer Class**

ESOL Level: 2+ and ABE Level: 1-6

*In-Person only*

This class prepares beginners with little or no computer experience, as well as students interested in expanding their digital literacy, with transferable computer skills necessary for their personal, work and educational lives. This class is suitable for any English level or literacy level. Basic Computer Skills Class will focus on basic student email, Google Classroom, Book Widgets, and Zoom skills that are needed for success in Literacy Source classes. Each quarter curriculum will remain largely the same with the expectation that returning students will be reviewing or practicing these core digital literacy skills for use in concurrent and future classes. Students must be able to read sight words, have taken at least 1 quarter of ESOL 1 or be concurrently enrolled in ESOL 1 or higher to enroll in class.

## **Ready to Work**

ESOL Level: 3-4

*Online Only Winter 2026- Spring 2026 will change to a morning hybrid schedule*

Ready to Work is a job-skills ESOL class that teaches reading, writing, listening, speaking, math and digital literacy in workplace contexts. The class is 4 days per week and has a required independent work component. Employment case management support is provided for participants. Students must live in the city of Seattle and be interested in finding a new or better job. In addition to the Literacy Source hosted online class, hybrid options are offered through our partners at ACRS and Neighborhood House High Point.

## **Math Lab**

*Online only*

In GED Math Lab, students are able to work independently, with tutor support, on their next specific math goals. Students can practice any level of math they need to improve their lives or work toward a credential from addition to pre-calc.

## **Academic English**

ABE Level: 4-6 and ESOL Level: 6

*Online only*

This class focuses on developing writing, reading, and reasoning skills in the context of reading across three main disciplines- social studies, science, and language arts. Each quarter covers one subject. The class offers two streams of learning:

*Life Skills*

- *academic reading*
- *college preparation*
- *language skills for career development*

*GED Skills*

- *GED test practice*
- *GED test strategies*
- *GED Academy (independent learning)*

## **Conversation**

ESOL Level: 2-6

*In-person only*

In whole-class and small-groups, students practice conversation around a variety of daily life topics. Class focuses on speaking and listening skills.

## **Grammar Lab (ESOL 4-6, ABE 3-6)**

*Online only*

In the grammar lab, students will practice sentence-level grammar for speaking and writing, focusing on control of simple, compound, and complex sentences. Online only.

### **Port Jobs Class (ESOL 3-5)**

Online with required in-person field trip

In this English class students will learn about jobs at the Port of Seattle and how to apply for them. This is an online class with an independent work component and a required in-person field trip to the Port of Seattle on March 5, 2026. Assistance in applying for jobs at the Port of Seattle will be provided. Students must be interested in working in this field. This class will be offered for two quarters only, with Winter 2026 quarter focusing on Aviation related careers and Spring 2026 focusing on Construction related careers.

### **Tutoring**

*In-person and online*

Tutoring is offered to support students enrolled in our ESOL, GED, and Citizenship classes. Tutoring is 1-2 times a week for as little as 90 minutes and up to 2 hours long.

## **Additional Tutoring Programs for Students**

### **Adult Foundational Skills Tutoring**

ABE Level: 1-3

*In-person only*

Work 1:1 with a tutor for reading, writing, math, or digital skills/computers. Three hours/week. Co-enrollment in another Literacy Source class is not required for this tutoring program.

### **Work Skills Tutoring**

ESOL and ABE Level 3+

*Online or In-person options*

The Work Skills tutoring program at Literacy Source focuses on one of the 3 goals:

- Resume: writing and sending
- Job applications: filling out and sending
- Job interviews: practice language and content for in-person or on-line interviews

### **Citizenship Tutoring**

ESOL Level: 2-4

*In-person only*

Students may be placed with a citizenship tutor without being enrolled in another Literacy Source class if they are low income, within one year of being able to apply and if they are not available for the evening online class.
