

March 7, 2022

Dear Sheboygan Falls Families,

Each week our team reviews our Health Services protocols including how they align with current knowledge around Covid-19. Over the last two years, we have balanced community expectations with the variety of outside organizations that provide data to schools (Department of Public Instruction, local and state health departments, federal guidance). ***Beginning Tuesday, March 8, 2022, we will be moving to the Health Services protocols as outlined in the Student Family Handbook, listed below.***

**Please do not send your child to school if the child has:**

1. Communicable diseases, please call the school nurse if your child is diagnosed with any communicable diseases.
2. A fever ~ oral temperature of 100.0 or higher. Students taking medication for a fever should not be sent to school. We cannot dispense medication for a fever at school.
3. Diarrhea and/or vomiting.
4. Other signs of an illness such as paleness, irritability, or excessive sleepiness.
5. A rash you can't explain.
6. Drainage or pus from a crusty sore (could suggest impetigo or infection).

**YOU MAY SEND YOUR CHILD TO SCHOOL IF YOUR CHILD:**

1. Has been taking antibiotics for 24 hours or more.
2. Has a mild cold, cough, or runny nose.
3. Is experiencing symptoms which are part of a medical condition.
4. Has minor bumps, bruises, scrapes, etc. that don't require medical attention.
5. Has been fever, vomit and diarrhea free for 24 hours or more.

Rapid Covid testing will still be offered on site for students or staff that have symptoms and choose to test. Testing is recommended for those experiencing symptoms but is ***no longer required for returning to school.***

Our quarantine protocols for close contacts remain the same; five day quarantine for family members that have a confirmed positive Covid-19 case in their household.

Sincerely,  
Annalee Bennin

Superintendent
