Sending Video

1. After touching ‘Send Video’, you are taken to the screen below. Before you take Video of your swing and send it to me, it is important that you watch the video I made titled: **“Video Requirements”** in the ‘Golf Coaching Videos’ section on my Home Screen Profile page. Once you have watched the video, click the arrow button on the top left-hand side to be taken back to the ‘ADD VIDEOS AND PHOTOS’ page.

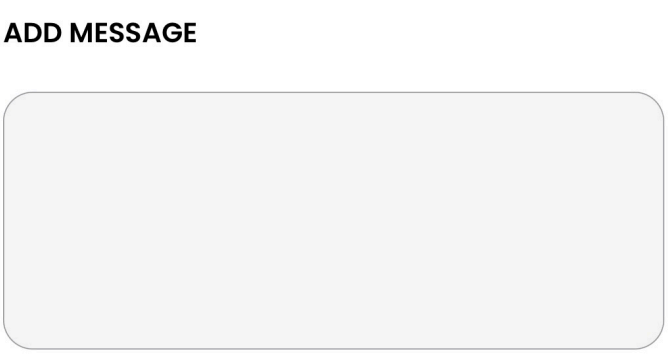

2. Now touch on the red ‘+’ button inside the square. ⊕ After you do this, you can choose Video from your phones ‘Library’ or ‘Take Video’ from the app.

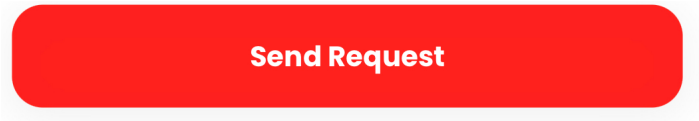

*** If you are choosing to 'Take Video', it is important that you trim your video so it is 2 seconds before you start your swing and 2 seconds after you finish your swing. In order to finalize this video footage, it is important that you click the 'Save' button at the bottom of the screen. After clicking, 'Save', you are brought back to the 'ADD VIDEOS AND PHOTOS' page where you can add additional video(s).*

4. In addition to the 'bio' part of your video submission, I would recommend, including your comments in the 'ADD MESSAGE' section. These comments can be very useful and should include the following:

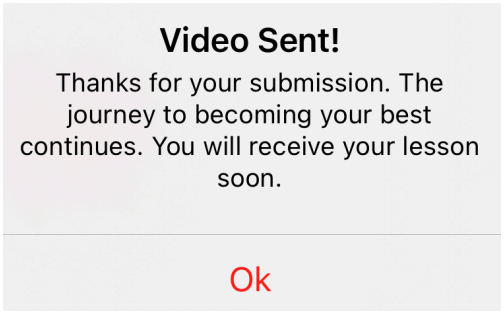

- Your handicap
- How long you've been playing golf
- The frequency you've taken lessons
- The best score you've ever shot
- Your tendencies with your shots
- Your goals related to score, handicap, or competition.
- …. and anything else you feel I need to know for you to play at your best!.

5. The final step is to simply touch on 'Send Request'.

** After you touch on 'Send Request', a confirmation message will pop up. Touch on OK to finish the process.
