

SUMMER ENHANCEMENT FOR INCOMING 2ND GRADERS

Listed below are great resources for your child to practice over the summer to be ready to go for 2nd grade success!! The websites for Math should be used to practice fact families for addition and subtraction, along with 2 digit addition and subtraction. Your child will be required to complete the ixl listed below for Math and Language Arts. **D'Nealian handwriting** should be practiced for every letter to allow for an easier transition to cursive.

Your child will be responsible for reading one fiction and one non-fiction book and be ready to take an **AR** on both during the first week of school. The book choice should be at his/her reading level. If you need help finding a book you can search at the following website: <https://www.renaissance.com/products/accelerated-reader-bookfinder/>

Enjoy your summer, Wendy Patterson and Patty Hughes

Websites to practice 2nd grade skills

Awesome site that covers all subject areas:

<http://edtechideas.com/125-sites-for-kids>

<http://www.gamequarium.com/index2.htm>
