

## **Incoming Second Grade Homework**

**Math** – Students need to practice flash card addition facts through 12 and subtraction facts through 10. It would benefit your child greatly if he/she is fluent with addition and subtraction facts. Also, please encourage your child to practice telling time on an analog clock and counting change. They should be able to identify all coins and know their value.

**Reading**-In order to avoid “The Summer Slide”, your child should read for a minimum of thirty minutes each day. During the first week of school, they will be expected to take an Accelerated Reader (AR) on two of the books they read over the summer.

### **Recommended Book Series:**

*Magic Treehouse Series* by Mary Pope Osborne

*Mercy Watson* by Kate DiCamillo

*Dog Man* by Dav Pilkey

*Amelia Bedelia* by Herman Parish
