Continuing Education Opportunity

Patient-Centered Mental Health in Pediatric Primary Care

A Pediatric Primary Care Training from the REACH Institute
Virtual Interactive 6-Month Program

Price: FREE - thanks to the generosity of an anonymous donor

Dates: September 8-10, October 13-15, 2023 & January 19-21, 2024

Available To: Providers practicing in the greater Atlanta area

Primary Target Audience: Pediatricians, family physicians, nurse practitioners, physician assistants

Contact: ppp@thereachinstitute.org

Course Description

This PPP course trains clinicians to diagnose and treat mental health conditions they see every day in practice. This program will teach you to manage the most common issues yourself, saving referrals to mental health specialists for complex cases. You'll leave the training with tools you can use immediately:

- Validated assessments to get data from patients and families
- Clinical guidelines for differential diagnosis
- Quick-reference medication guides
- Sample forms for referring patients to psychotherapy

Time Commitment

Patient-Centered Mental Health in Pediatric Primary Care has two components:

- A dynamic three-day, 17.75-hour interactive course focused on building skills and confidence in diagnosing and treating pediatric behavioral health problems.
- A six-month case-based follow-up program. Participants can join 12 bimonthly, one-hour group conference calls with national primary care and child/adolescent psychiatry experts to solidify their learning
