

Anthem Quality Program Overview

TCCN holds an Enhanced Personal Health Care (EPHC) value-based care program with Anthem. The program is designed to improve patient outcomes and reduce unnecessary health care costs. TCCN utilizes population health and performance management data to assist you in actively maintaining relationships with your patients in the primary care setting.

Incentive Potential

To be eligible for incentives from Anthem, TCCN as a network must meet the Minimum Target for quality.

Once the Minimum Target is met, and the higher the network score, the more incentives TCCN will receive.

TCCN will distribute the earned incentives to practices based on a methodology that is approved by the TCCN Finance and Contracting Committee. The incentive for each participating practice is calculated based upon a percentage of member lives and quality performance.

Measures, Points and Targets

**Please note that the performance listed is from claims paid through 5/31/2022.*

Measures in **BLUE** are the focus for the Calendar Year 2022!

Measure	TCCN Performance	Minimum Target	Maximum Target	Practice Action
Appropriate Testing for Children with Pharyngitis	85.88%	75.28%	94.90%	Review Scorecard & aim to improve if not meeting min target
Asthma Medication Ratio	85.15%	80.34%	92.04%	Review Scorecard & aim to improve if not meeting min target
Well Child 3-6 Years	87.39%	73.88%	87.40%	Review Scorecard & aim to improve if not meeting min target
Avoidance of Antibiotic Treatment for Acute Bronchitis/Bronchiolitis – Pediatric	64.04%	42.37%	70.91%	Maintain
Childhood Immunization Status-MMR	88.67%	86.14%	95.00%	Maintain
Childhood Immunization Status-VZV	88.72%	88.14%	95.00%	Maintain
Well Child 0-15 Months	88.74%	85.34%	92.42%	Maintain
Potentially Avoidable ER Visits				Review Fever Communication
Brand Formulary Compliance Rate				TCCN monitoring

TCCN Support for Practices:

Clinical Practice Guidelines

The first seven measures are national measures based from NCQA's HEDIS measures. Clinical Practice Guidelines for these measures can be found at [CMS.gov](https://www.cms.gov) or [NCQA](https://www.ncqa.org) websites.

Measure Definitions

To assist practices with the measure specifications, TCCN has created a [measure definition sheet](#) detailing each of our focus measures. You can also access Anthem's coding guidelines for these measures by clicking [here](#).

Anthem Scorecards

TCCN will send practices bi-monthly Anthem Scorecards for the three focused measures identified above. Practices can use the scorecards to view their performance, benchmark performance with like peers, and look to see if they are meeting network targets.

Recall Lists

TCCN will send meaningful and actionable recall lists at least three times throughout 2022. If your practice would like more frequent recall lists to drive visits and meet compliance with the measures, please contact your TCCN Provider Relations Representative.

Sharing of Best Practices

Together we are better! TCCN believes in learning from others and sharing information to help our practices and patients. We will be compiling a list of best practices from our top performers and sharing them with the membership. These nuggets can be applied in your practices if you feel they fit your individual needs.

Timeline

- Anthem Scorecards will be sent in September and November
- Anthem Recall lists will be sent February, June, and October Practices can request more frequent recall lists if desired
- Targeted practice reach outs are ongoing throughout the year

Questions?

If you have any questions, please contact your practice's TCCN Provider Relations Representative for additional information or send us an email at contact@tccn-choa.org.
