

# FLUARIX QUADRIVALENT (Influenza Vaccine) and FLULAVAL QUADRIVALENT (Influenza Vaccine)

## DELIVERY GUARANTEE

Vaccine deliveries will start in August, 2023, with a guarantee to deliver 100% of vaccines by October 13, 2023. GSKDirect customers who prebook by March 31, 2023 have a delivery guarantee by October 13, 2023 as long as the doses are in a "reserved" status.\* Any prebooked doses delivered after October 13, 2023 due to the fault of GSK will be eligible for a 10% discount.†

## RETURN PRIVILEGES

Unless otherwise specified in the purchasing agreement or by state law, participating members will be eligible to return up to 15% of GSK flu vaccine doses purchased via GSKDirect for full credit (the 15% eligibility is applied in the aggregate across both brands). In order to qualify for return reimbursement of eligible flu vaccine doses, customers must obtain a **GSK-issued Return Goods Authorization (RGA)**.‡ The RGA can be obtained via **GSKDirect.com** or by calling the GSK Vaccine Service Center at 1-866-475-8222.

Eligible flu vaccine doses returned must be received at the GSK Return Goods Vendor within the Flu Vaccine Return Period, unless otherwise specified by state law. GSK will notify eligible customers of the return window begin date and end date ("The Flu Vaccine Return Period") and when the RGA will be available. Flu vaccines returned without the RGA and/or received outside of the eligible Flu Vaccine Return Period, or outside the period provided by state law, will be reimbursed Federal Excise Tax (FET) only.

- With the exception of terms that conflict with the purchasing agreement (in which case the purchasing agreement terms supersede all other provisions), all other GSK Return Goods Policy provisions apply as published on **GSKDirect.com**. GSK's Return Goods Policy is subject to change on **GSKDirect.com** without notice.

CONTRACTED

**Fluarix Quadrivalent**  
Influenza Vaccine

**FluLaval Quadrivalent**  
Influenza Vaccine

\*This applies to wait-listed doses placed before March 31, 2023 only if those doses move into a "reserved" status at any point in the season.

†You will receive an email notification when your GSK flu vaccine doses are available to order. Any doses not scheduled by the date specified on the notification email will be canceled.

‡GSK-issued Return Goods Authorization (RGA) – GSK will provide customers with a document in the form of a debit memo authorizing the return of eligible flu vaccine doses. Please note, the creation of a return box label through the GSK Return Goods Vendor is not a guarantee of reimbursement and is not to be used in place of a GSK-issued RGA.
