

Highlights from October Vestry Meeting

- The Vestry has approved improvements and repairs to the Columbarium, including lighting that will make the names easier to read.
- The Vestry was unable to meet to discuss Racial Equity Investing in October but will do so at a later date
- Pledges for the year are above what was expected and although income is down, expenses are also down. An updated financial report will be prepared based on September's numbers, but we look to be in decent shape.
