

Groundbreaking!

So many good things are happening at St. Luke's Episcopal School in Martel. Last week they broke ground on the final classroom building, which will also contain a computer lab with wifi. We are excited about the impact this will have on the school and the community.

This final building will give us enough classroom space to expand the school to include 12th grade and the baccalaureate year. We also believe the wifi connection will give us closer communication with the community leaders, and open up the world for the students.

This is the sixth building on the campus. We have five classroom buildings and a hall that doubles as worship and classroom space. It's exciting start construction after prayerful discernment and conversation with the leaders in Haiti, with faith that God will provide the people and resources to accomplish His will. We don't know where the money will come from, or how long it will take to raise. It will happen in God's time. We ask for your prayers.

So far we have enough money to complete the foundation. The photo above was from the previous classroom building which we completed earlier this year.

Students starting the school day at St. Luke's Episcopal School

Here in New York, we have several new partner parishes this year. These are all Episcopal parishes in the Diocese of New York:

- All Saints', Harrison
- Christ Church, Poughkeepsie
- Church of the Ascension, Mount Vernon
- Good Shepherd Episcopal Church, Roosevelt Island
- Grace La Gracia, White Plains

- Church of the Holy Communion, Mahopac
- St. Andrew's, Hartsdale
- St. Francis and St. Martha, White Plains
- St. Joseph of Aramithea, White Plains

The New York Haiti Project accepts partner parishes who are willing to pray for St. Luke's Episcopal School, and who can make a financial contribution. There is no minimum amount. Many parishes start with a modest annual contribution, and then increase it each year as their connection to our work grows through prayer.

We are Episcopalians working together, in New York and Haiti. We are building bonds of love that are making a difference in all our lives.

More students

We are so grateful for all of you who continue to support the New York Haiti Project and St. Luke's Episcopal Church and School in Martel. Since 2016 you have helped us discern God's will for our work together.

Please continue to pray for St. Luke's Episcopal Church and School in Martel, and for Fr. Wildaine André, priest in charge.

Christ's peace,

Sam+

The Rev. Canon Sam Louis Owen
Director, New York Haiti Project

P.S. We welcome your donations, which will help us continue to build the final classroom building. Click here to donate, or mail a check to the address below.
