Instructor: Ellaline Davies, President of Safety Works Consulting Inc.

We have seen changes in our construction workplaces around medical marijuana and the now legalization of Cannabis.

What can we do about this and other substances that are being consumed in our workplaces?

In this course we'll look at substance use, what is it and what impact it has on other workplace parties. We'll look at the identification of substances and what we can expect the outcome to be if we do nothing. In addition to this, you will learn what FIT FOR DUTY actually means because its not just about substances in the workplace! To find our more, join us for this informative learning session.

The course has a lecture format followed by small group participation and large group discussion.

WHO SHOULD ATTEND: Employers, Owners, Managers, Supervisors, Workers

WHAT WILL YOU LEARN:

- How to identify different substances in your workplace
- Other activities around substance use
- How to handle situations
- Developing a robust Program to navigate the waters

- How employers can protect themselves
- And what to do and what not to do
