Resources to help you achieve compliance on construction projects and window cleaning operations

General requirements
Access to and egress from a work area
Asbestos on construction projects
Diving operations
Electrical hazards
Equipment
Excavations
Fall protection and roofing
Forms, formwork, falsework, and re-shoring
Housekeeping, fire protection, public way protection, traffic control, and hot tar or bitumen tankers or kettles
Hygiene
Window cleaning operations
Workplace Hazard Alerts I Ontario.ca

Section 1 – Senior Manager's Comment

While it feels very Canadian to talk about the weather, the past few weeks have been dominated by it. Violent storms, wildfire smoke, and prolonged heat waves have all been impacting work across the province. It's imperative that emergency plans are updated to reflect the changing environment. Constructors, and especially supervisors, need to be factoring the weather into their planning and how it will affect work and workers.

Over the month of August, construction inspectors will be putting a focus on hot weather plans and preventing heat stress injuries. They will be looking for plans, the triggers for putting a hot weather plan into effect, and how workers will be protected while they work. Further down in this report, there is a link to resources for constructors and employers. Our system partners also have great resources, and I encourage you to educate yourselves, supervisors, and workers on how to stay safe.

Also in this report, you'll see some changes to how we present data. We're hoping to keep the report relevant and interesting for you. Please share any feedback with me.

Sincerely, Chris Boccinfuso

A/Senior Manager
Construction Health and Safety Program
Occupational Health and Safety Branch
Ontario Ministry of Labour, Training and Skills Development

Section 2 – What's New

Avoid heat stress this summer

Working when it's hot puts stress on your body's cooling system. When ignored, it can lead to heat-related illness, disability and even death. This can happen to anybody. Under the *Occupational Health and Safety Act*, employers must take every reasonable precaution in the circumstances for the protection of a worker. This may include protecting workers from heat stress.

OHCOW: Advance evidence on cancer risk factors and heat stress management

New at Occupational health Clinics for Ontario Workers (OHCOW):

- OHCOW's research paper, *Occupational and Environmental Risk Factors for Salivary Gland Cancer: A Systematic Literature Review*, has been published. Read the paper here.

Two peer-reviewed papers provide evidence supporting the validity of OHCOW's Humidex-based Heat Response Plan. Learn more about how the plan is internationally recognized as an effective method for managing heat stress.

Critical Injuries	June 2026	Year to Date 2026
As defined in S.1(1) of O.Reg. 420/21 – Notices and Reports Under Sections 51 to 53 of the Act – Fatalities, Critical Injuries, Occupational Illnesses and Other Incidents	**35**	**215**
	June 2025	Year to Date 2025
	41	172

NOTE: These figures represent preliminary data and are not to be considered official statistics from the Ministry of Labour, Immigration, Training and Skills Development. Official statistics will be issued quarterly by the Program Analysis, Evaluation and Outcomes Unit of the Occupational Health and Safety Branch of the Ministry of Labour, Immigration, Training and Skills Development. Data are subject to change due to updates in the enforcement database. Only events reported to the ministry are included here. Except for fatalities, event categories in the ministry's data set are based on what was assigned at the time of the initial report to the ministry. The reported event category may not represent what occurred at the workplace.

Section 1 of **O.Reg. 420/21** states:
"critically injured" *means an injury of a serious nature that*

Sub-Clause	Definition	C/Is by Definition June 2026
(a)	places life in jeopardy	6
(b)	produces unconsciousness	4
(c)	results in substantial loss of blood	0
(d)	involves the fracture of a leg or arm but not a finger or toe	25 (Arm/Hand 10 | Leg/Foot 15)
(e)	involves the amputation of a leg, arm, hand or foot but not a finger or toe	0
(f)	consists of burns to a major portion of the body	0
(g)	causes the loss of sight in an eye	0
	Total	35

Section 1 of O.Reg. 420/21 states:
"critically injured" *means an injury of a serious nature that*

Sub-Clause	Definition	C/Is by Definition TYD 2026
(a)	places life in jeopardy	31
(b)	produces unconsciousness	34
(c)	results in substantial loss of blood	2
(d)	involves the fracture of a leg or arm but not a finger or toe	148 (Arm/Hand 49 | Leg/Foot 99)
(e)	involves the amputation of a leg, arm, hand or foot but not a finger or toe	0
(f)	consists of burns to a major portion of the body	0
(g)	causes the loss of sight in an eye	0
	Total	215

Occupational Health and Safety Branch - Construction Health and Safety Program

NOTE:

As we are seeing an increase of struck by vehicle incidents and less so with a collapse of structure, the charts below have been updated. 'Collapse of structure' has been replaced with 'Stuck by vehicle'. Struck by vehicle incidents were previously captured in the 'Other' row and referred to as NEC-Construction (not elsewhere captured).
