

Counting Kids Discussion

Discuss the following with staff who work with you in your classroom:

When is an initial count of children taken?

Who is responsible for taking this initial count of children?

How do changing staff (substitutes, staff who fill in during breaks, etc.) know how many children they are responsible for?

List other times during the day when children should be counted and who will be responsible for taking these counts.

When count should be taken

Who's responsible
