

August 10, 2017

Dear Early Childhood Educator,

We are excited to invite you to participate in Child Care Consultants, Inc.'s Extreme STREAM Fair! The purpose of the event is to engage children ages birth through Kindergarten and their families in hands-on, developmentally appropriate STREAM (Science, Technology, Reading, Engineering, Art, Math) activities led by Early Childhood Educators-- such as you! This event will offer resources as well as entertainment to all attending families. Your participation in the event will bring positive exposure for your program and allow you the chance to meet over 150 local families and network with other professional organizations.

As an Early Childhood Educator you have the opportunity to host a table at the Extreme STREAM Fair. We ask that you bring an engaging activity geared towards children ages birth through Kindergarten. The activity must fall into one of the STREAM categories. Each child/family will receive a STREAM Passport card during the event which will encourage every attendee to visit your table and participate in your activity. We also invite you to bring resources about your program and your selected activity to share.

We are excited to have you join us in this opportunity to promote the importance of learning that focuses on brain development to prepare children for school and life.

Please complete and return the enclosed vendor application by August 24th to participate. You may contact us at 717-771-8557 for more information about the event. We look forward to partnering with you!

Sincerely,

A handwritten signature in cursive script, reading "Stacie Shurock".
