

September Sack of SACC

Establishing Your R.E.P.: Rules Expectations and Procedures/ Sack of Management Tips and Guides

September 8, 2021 *New Time-10:00 a.m-12:00 noon*

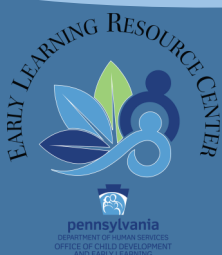

School is back in session (hopefully! But after such an unusual year of social distancing and isolation from peers and group settings, it should be no surprise that children are out of practice with (or never learned) appropriate ways of working, playing, or being together.

In this session, directors and lead teachers will:

- Examine the expectations they have around appropriate behavior in the program.
- Review age appropriate behaviors and how they align with the behavior expectations of staff.
- Discuss your program expectations around behavior and how they are aligned with and communicated to the children, staff, their families and their school community expectations.
- Develop plans for involving the children in implementing and reinforcing your program procedures and rules in ways that support children in increased independence, self regulation and community building through practice and feedback.

Participants will receive a “Sack” of Management Resources

Please RSVP Rhea Simmons at rsimmons@childcareconsultants
by September 7th.
