

CREATE AND INNOVATE A MAKERSPACE FOR OUT OF SCHOOL

MARCH 7, 2025, 10 AM -3 PM
(SNOW MAKE UP MARCH 14)

GETTYSBURG COLLEGE
300 NORTH WASHINGTON STREET, GETTYSBURG PA 17325

This event is structured to guide Out of School (OST) program coordinators and educators through the process of incorporating makerspaces into their programs.

It will cover the fundamentals of makerspaces, how to foster a maker mindset, and how to create a sustainable, portable, and collaborative makerspace for K-6 students. The plan includes practical steps, training, and future collaboration with colleagues.

\$65 (LUNCH IS INCLUDED)

IT'S NOT TOO
LATE TO JOIN
THE PROJECT!

HELP KIDS EAT HEALTHIER SNACKS AND MOVE MORE.

It's not too late to join **The Pennsylvania Out-of-School Time (OST) Healthy Eating and Physical Activity (HEPA) Pilot Project**.

The HEPA pilot project exists to support Out-Of School Programs to improve policies and practices to help kids eat healthier snacks and move more.

In this webinar, learn about the HEPA Project, including web-based asynchronous professional development events, resources and strategies through the Out-of-School Nutrition and Physical Activity Initiative (OSNAP), and technical assistance through the Pennsylvania Key and Department of Health.

Who should join? Anyone who currently runs an Out of School time program for students in kindergarten – 8th grade. This includes administrators and program staff, DHS certified child care, 21 CCLC grantees, libraries, recreation programs, Boys and Girls Club, tutoring support etc.

This pilot project is free of cost and will be awarding up to \$750 in innovation awards.

Questions? Contact Betsy O. Saatman at betsaa@pakeys.org or 484-955-5909.
