

Oakdale, MN HyVee Gas – Starbuck's New Construction

Project Summary:

This multi-tenant project was completed in Oakdale, MN by HyVee Construction LLC in the outlot of the HyVee Grocery Store. Fullerton's scope included the exterior wall panels, interior walls, awning and exterior finishes. The Starbuck's side utilized Endicott Thin Brick and Resysta Siding stained in Siam. The HyVee Gas side utilized the Kansas City Brick that was purchased by the customer and a light and dark Dryvit Color. FBS assembly option was selected. FBS delivered this building package in the summer of 2015.

Meet or Exceeding Owners Goals, Values and/or Expectations:

HyVee Construction, LLC partnered with FBS on this project. HyVee Construction works very closely with the FBS design department and they like the one stop shop, where FBS works with the plans, building package and assembly of the building package. Assembly of this building package took a little over 3 days. Utilizing FBS, HyVee Construction gets a high quality project on every site.

Client Profile:

HyVee Construction, LLC is a full service general contractor and construction management company specializing in the construction of the grocery retail and related facilities. Due to our long lasting relationship with HyVee Construction, LLC, FBS has completed well over 60 building packages/remodels for HyVee Construction.
