Capital Projects
Port Tampa Bay

**Breakfast, Snacks, and
Lunch provided**

Itinerary subject to change

JD Fields and Tampa Ports present the 4th annual Port Engineering seminar. This year's topics will cover a range of technical applications related to the design of steel port geostructures.

From innovative anchorage systems to domestic high modulus applications and the latest in port maintenance solutions. We look forward to once again hosting the greater Tampa port engineering and contracting professionals. Join us on September 23rd for a half day of technical exchange and networking as we learn and earn. (JD Fields is an authorized continuing education provider of RECP).

All who attend will receive a certificate for 3.0 PDH!

Questions? Call (803) 521-5431 or email: tmccarry@jdfields.com.
