

Dear Members, Partners and NOTL's business Community at large,

The Chamber's team has not stopped providing a calm, reasonable update with links to official information related to the tourism industry. Rumours are just that. The real collaborative work that we are seeing, even at a distance or online, is what makes me proud to be part of NOTL. We will prevail and come out of this much stronger if we all rely on our community and work together. Yesterday I was in a Zoom conference (another one, never been so connected) with fellow members of a Destination Think-Tank. One of them shared this:

James Stockdale was a USA Navy vice admiral and was held prisoner in Vietnam during seven years, he was sure that he was going to get out of it.

So should we!

Be well and stay healthy

The Team of the Chamber of Commerce and Tourism NOTL
