For Immediate Release

Horizontal Curve Warning Signs SBCO and RIVCO Various Routes November 2025

SAN BERNARDINO, CA – The California Department of Transportation (Caltrans) informs the public that construction contractors continue sign work on various routes. This is part of a \$5.1M safety project to upgrade and install curve warning signs.

Work will take place Monday through Friday, 8:00 a.m. to 4:00 p.m. All work will occur on the shoulders; no closures are needed at this time. This will be temporary moving operations to allow work from one location to the next.

Closures are dependent on contractor receiving proper materials for each job function. They can be changed or canceled at any time. Weather permitting. **Drivers, please adhere to posted speed limits and signage informing of closures and roadwork ahead.**

This is an active work zone with flagging and potential traffic delays. PLAN AHEAD and drive safely being mindful of closures and alternate routes.

Semi-trucks and oversized vehicles: To avoid traffic delays consider using alternate routes to access surrounding communities. Drive safely being mindful of no truck signage on alternate routes, clearance, and low width zones.

Know before you go! To stay on top of roadwork in the Inland Empire go to [Caltrans District 8](#) and sign up for commuter alerts. Follow us for the latest information on
