

# Complete NASEM Package for Gluten Feed & Distillers Grains

Dairyland Labs has offered NIR analysis on several commodity feeds since 2018. We are now adding the NIR Complete NASEM Package for Corn Distillers Grains and Corn Gluten Feeds. The Complete NASEM offering adds NDFD at 12, 48, 240 hours for Distillers and Gluten Feed, as well as the Ross UCP (Undigestible Crude Protein) on Distillers Grains.

The new NIR offerings enable fast-turnaround time on important formulation inputs for fiber and protein digestibility, which alternatively would take multiple weeks in a chemistry lab.

Feed Type	Basic Package								CNCPS 6.5+ Package	Complete NASEM		
	(includes all nutrients in black)								(includes all nutrients in the Basic Package)			
	Crude Protein	Crude Fiber	ADF	NDF	Fat	Ash	WSC & ESC	Starch	NDFD/ uNDFom 12, 72, & 120 hr	Ross UCP	NDFD/ uNDFom 12, 48, & 240 hr	Ross UCP
Beet Pulp	X	X		X	X	X	X		X			
Blood Meal	X				X	X						
Brewer's Grain	X	X		X	X	X		X	X			
Canola Meal	X	X		X	X	X			X	X		
Corn Distillers Grain	X	X	X	X	X	X		X	X	X	X	X
Corn Gluten Feed	X	X		X	X	X		X	X		X	
Meat & Bone	X				X	X						
SBM	X	X		X	X	X				X		
SBM - Bypass	X	X		X	X	X				X		
Soy hulls	X	X		X	X	X		X	X			
Wheat Midds	X	X		X	X	X		X	X			

NIR Basic, NIR CNCPS 6.5+, and NIR Complete NASEM Packages can be requested on the above feed types via E-samples or traditional submission forms. The nutrients included in the package will vary depending on the feed type. Please contact us at [info@dairylandlabs.com](mailto:info@dairylandlabs.com) with any questions.
