City of Green COVID-19 (Coronavirus) Response

The restrictions imposed due to the COVID-19 crisis may be making everyday tasks more challenging for some Green Residents. As a result, the City is setting up Green Together, a hotline and online registration allowing residents to request or offer assistance. To participate, call the hotline, email, or complete the online form.

► Senior Courtesy “Check in” Call

Senior residents can call or sign up online to receive check-in calls twice a week. These courtesy calls will help us address your concerns and ensure our senior residents are safe.

► Volunteer

The City is asking anyone interested in volunteering to call or fill out the online form. Our goal is to link volunteers with those in need.

► Request Assistance

Residents in need of special assistance due to the COVID-19 restrictions may request assistance.

► Offer Assistance

Individuals, organizations, or businesses with resources or the ability to help others in a unique or meaningful way should call the Green Together hotline or complete the online form.
